

flexxica

lighting & acoustics

Why flexxica?

Flexxica creates acoustic lighting solutions for interiors where people need to think clearly, communicate comfortably, and feel good. Our products combine sound absorption, professional lighting performance, award-winning design, and responsible materials, helping architects design spaces that work beautifully on every level.

1. Acoustic comfort

Designed to reduce noise. Made to improve focus.

In open-plan offices, meeting rooms, receptions, and hospitality spaces, sound has a direct impact on comfort, concentration, and well-being. Flexxica acoustic luminaires and interior solutions help reduce reverberation and support a calmer, more balanced acoustic environment, without compromising the visual concept of the space.

Where light meets silence.

2. Professional lighting performance

Office-ready lighting for real working environments.

Flexxica luminaires are developed for professional interiors where light quality matters. Glare control, efficient LED technology, high visual comfort, and technical parameters aligned with workplace requirements make our products suitable for offices, conference rooms, public areas, and hospitality projects.

Let's create together!

3. Award-winning design

Recognised internationally.
Chosen by architects.

Flexxica products have been recognised with leading international design awards, including German Design Award, Red Dot Design Award, iF Design Award, Design Plus and other distinctions. For us, design is not decoration, it is the intelligent connection between form, function, material, light, and acoustics.

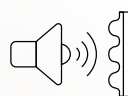

Flexxica's key info

4. Sustainable and certified materials

Responsible materials. Long-lasting solutions.

We design with durability, material responsibility, and long-term value in mind. Flexxica products use acoustic ecoPET made from recycled PET bottles, recyclable acoustic materials, and certified upholstery, including OEKO-TEX® STANDARD 100 fabrics. The result is a product portfolio that supports better interiors, and a more responsible design process.

Beyond silence.

Precision in form and light.

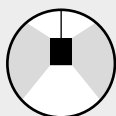

While flexxica is globally recognised for revolutionising acoustic comfort through soft textures and vibrant colours, our engineering expertise runs equally deep in professional architectural lighting. Enter the **Line Oval Family**, a comprehensive range of minimalist pendant luminaires (available in 30 mm, 48 mm, and 75 mm diameters) designed for modern workplaces where lighting performance, visual comfort, and distinctive geometry matter most.

Engineering meets elegance.

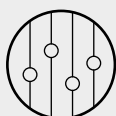

High efficiency & low UGR

Delivering high luminous efficacy (up to 118 lm/W on select configurations) alongside advanced optical control to maintain a UGR under 19, ensuring optimal visual comfort for intense office work and executive conference rooms.

Tailored light distribution

Choose between sleek microprismatic diffusers, opal diffusers for uniform glow, or high-performance Dark Optics for precise, glare-free illumination with direct and direct/indirect options.

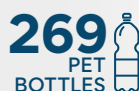

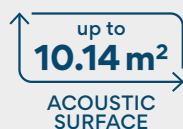

Limitless customisation

Featuring powder-coated aluminium housings available in any custom RAL colour palette, alongside interchangeable reflector lenses in matte black, white, silver, or gold.

Acoustic Zen collection

Best for open-plan offices

Zen Collection by flexxica is a family of four ribbed shape office lamps made of sound-absorbing material designed to provide both functional lighting and acoustic benefits in workspace setting. Zen Collection secured WINNER title for Excellent Product Design in the Lighting category at the German Design Award 2024.

Acoustic Team

Best for meeting rooms

The Flexxica Acoustic Team redefines office space with modular design and linear lighting. The Flexxica Acoustic Team lamp received the Red Dot Award: Best of the Best 2021. Designed by Kabo&Pydo – Design Studio.

best of the best

Acoustic Screen Glow

Best for acoustic zoning

Screen Glow, a hanging office divider with two mini linear luminaires, is designed for dual functionality: effectively absorbing office noise and casting a gentle glow for ambiance. Screen Glow has been acknowledged for Excellent Product Design in the Lighting category, earning a SPECIAL MENTION at the esteemed German Design Award 2024.

Acoustic Sol collection

Best for flexible zones

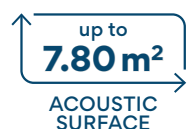

Sol Collection brings the brilliance of radiant light and transformative acoustics to office environment. It offers the choice between two distinct shapes – round and square – to harmonize with individual aesthetic preference. The Sol Collection secured SPECIAL MENTION at the prestigious German Design Award 2024.

Acoustic Bell

Best for open-plan offices

Acoustic Bell office lamp represents a modern reinterpretation of the traditional lampshade. Its design revolves around a bell-shaped structure with ribbed detailing, giving the shade an elegant, spatial appearance. An award-winning acoustic luminaire designed to reduce reverberation while creating a strong architectural focal point.

DESIGN PLUS

2022

Acoustic Ivy acoustic luminaire

Best for flexible zones

Ivy is a felt-made sculptural lighting fixture, functioning as a luminaire, a sound-absorbing element, and a piece of art within the office. It is a part of Bloom Collection, a masterpiece conceived in collaboration with Anna Spakowska. Ivy received WINNER title for Excellent Product Design in the Lighting category at the German Design Award 2024.

Boya

Best for reception areas

Boya is a decorative pendant luminaire. It can be hung as a single element or create an exciting constellation. The lamp shade is made in traditional blown-glass technology. Design by Kabo & Pydo – Design Studio. Boya was awarded the prestigious Red Dot Award 2021.

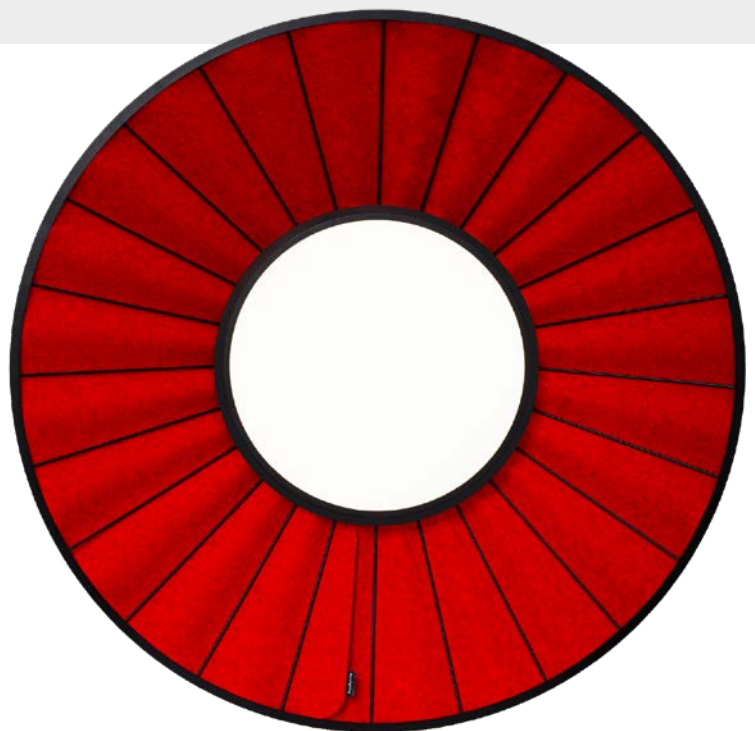

reddot winner 2021

Acoustic Cone

Best for meeting rooms

The industrial Flexxica Acoustic Cone office lamp combines a steel lampshade with acoustic felt. The Flexxica Acoustic Cone lamp has been awarded the global sign of exceptional design – iF DESIGN AWARD 2022 and was also nominated for the German Design Award 2021 in the Excellent Product Design category.

Jungle

Jungle is a decorative lamp that invites more nature into the interior. It has a double function: a lamp and a plant pot and it is completely waterproof. Design by Kabo & Pydo – Design Studio. The Flexxica Jungle pendant lamp was awarded Gold for Excellent Product Design in the Lighting category at the German Design Award 2022.

Wire Medusa

Wire Medusa's form refers to the classic archetype of the chandelier. A precise dimensional shape is composed of individual segments of bent wire. The parallax effect accentuated by the light emanating from the lamp's center creates a sculptural spectacle. Design by Kabo & Pydo – Design Studio. The Wire Medusa lamp received the Red Dot Award: Product Design 2021.
